👤 PROFILE

Hi, My name is Mohit Varikuti. I am currently 13 years old. I have an IQ of 217. I was born in Los Gatos, and I currently live in Dublin, CA. I am currently a AI expert, certified by the Global Tech Council. I am Currently building projects most people cant even dream of, including Super Intelligent AI's. I also know 15 coding languages, which of include Python, JavaScript, and HTML, (The same kind that coded this website). I also currently have a patent pending, for a Zigby IOT Mesh Network system. I also currently have a 3d printer , which I know how to operate and repair.

Some of my skills include, 3d printing, IOT, Artificial Intelligence, Advanced Algorithms, Advanced Hardware, Biotech, Web Development, VR Development, Frontend and Backend coding, and Automated Drone Flying. I also have verifications on all of these topics from MIT, to Harvard, to University of Michigan. But really, these things don't tell much about a person. Most of the time, to understand the person, you have to meet them. And I hope to meet all of you someday, but for now, I will tell you about myself. My mindset has always been a certain way that I was able to understand the things that no one else was able to. In my life, I have always loved to solve puzzles, and things that were mentally challenging to the brain.

And while I used my brain alot, I also use my physical strength and determination as well. I am currently First Class in Boy Scouts, and I am aiming to be an Eagle Scout, and as well, I also very much enjoy Biking, as it is one of my favorite things to do. I hope that this has given an accurate insight into my life, and that all details were covered.

🎓 EDUCATION

SH, Challenger Private, San Jose
August 2012 — July 2014

EL, Amador Elementary, Dublin
November 2015 — July 2018

MS, Fallon Middle School, Dublin
August 2019 — January 2021

🔧 COURSES

Tensorflow Developer Certificate, Google
June 2020 — November 2020

Certified AI Expert, Global Tech Council
June 2020 — December 2020

Biotech and Biomedical Expert, Catia Training
November 2020 — December 2020

AI: Implications for Business Strategies, MIT
March 2020 — May 2020

(S)CSS
MatLab
Jupyter Notebook
Flask
Heroku
Tensoflow
Pytorch
Keras
Bash, (Shell)
GO
Swift
Objective-C
C++
C#
TypeScript
Rust
R
HTML
Machine Learning
Machine Conciseness
◦ LANGUAGES ◦
English
Spanish

○ **Advanced Google Analytics, Google**
January 2021 — January 2021

○ **Crash Course on Python, Google**
December 2019 — February 2020

○ **RNN Networks: Usage in AI, Harvard**
February 2020 — November 2020

○ **Distributed Computing, MIT**
July 2020 — December 2020

○ **Rocket Science, NASA**
November 2019 — June 2020

○ **CUDA Computing, NVIDIA**
February 2020 — November 2020

○ **Python Basics, University of Michigan**
January 2021 — January 2021

🦋 EXTRA-CURRICULAR ACTIVITIES

○ **Boy Scouts at BSA, Dublin**
June 2020 — January 2021

I am currently doing Boy Scouts with a current rank of First Class, and I aim for Eagle

○ **Taekwondo at Elite Taekwondo, Pleasanton**
February 2017 — June 2020

I became a junior black belt, and went to many competitions

○ **Youth Coding Workshops at YCW, Dublin**
December 2020 — January 2021

I taught kids how to code and became a staff member for YCW
